

District Court Held

By Judge McDonald

Taking Game Bird Without Having License Results in Court Appeal by Defendant

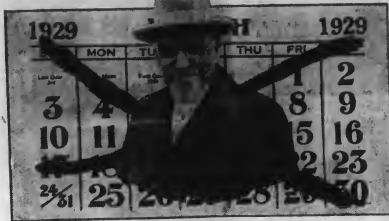

On April 9 at the district court is by all odds a great special and held in the council chamber the most pretentious in which Coleman in the case of The King vs. Jean Moore has appeared to date. James Evans was heard, J. D. Already known as the screen's foremost Matheson, K.C., for the plaintiff most comedienne, her role in this and R. F. Barnes for the appellant. production establishes her on the topmost pinnacle as a dramatic actress made by J. W. Gresham. The tenderness, pathos and Eq. of taking a game bird without the little French girl makes "Lilac Time" was renewed on an application for the most discussed ion to allow the appeal, and in the pictures of the year. George Fitzmaurice's direction of this colorful love story is said to be the best of his long career. The supporting cast of "Lilac Time" includes Gary Cooper, hero of "Beau Sabreur," "The Legion of the Condemned," and other big productions; Burr McIntosh, Geo. Cooper, Cleve ordering the defendant to vacate Moore, Kathryn McGuire, Eugenie the premises and to pay the costs Bressler and many others.

The second case of Kerr vs. Siot was an application for possession of "The Legion of the Condemned," premises occupied by an over hold tenant. An order was made Moore, Kathryn McGuire, Eugenie the premises and to pay the costs Bressler and many others.

An application for naturalization Geo. F. Burne, provincial inspector for London & Lanesshire Insurance Co., was here on Monday making an inventory and appraisal of the property of St. Al. to arrange for the building of a ban's church, parish hall and recreation of the Canadian Bank of Commerce, similar to the building of group insurance for the Anglican here last year. "Dap" can churches in the Diocese of Calgary made such a good job that he has his. Mrs. Burne accompanied fame has spread beyond the bound' her husband, and they visited at daries of his own province. He the Rectory for a few hours, Mr. may take some experienced men Currie having known Mrs. Burne from here to work on the contract when she was quite a small child.

"Lilac Time" for Palace

"Thirty Days Hath September"

Arriving at Halifax recently, aboard the Anchor-Donaldson liner Athena from Great Britain, bound for Ottawa and Washington, Moses B. Cotsworth, of Vancouver, calendar expert for the League of Nations, declared that in a year or so Canada and the whole civilized world will adopt the new simplified calendar of 13 months to each year, and 28 days to every month. The old calendar misrepresents business production because some months have more Tuesdays or an additional Sunday, he said. Forty years of study on this pet subject of his have convinced him that our school-day rhyme might as well be laid aside now.

Town Council Held Meeting Thursday

Ratepayers on First Street East Decision Is to Issue Route Map Ask for Downward Revision of Assessment

A regular meeting of the town council was held last Thursday. Present were Mayor Burns, Crs. Nelson, Pattinson, Moores, Rush-ton, Smith and Snowdon.

A communication from the town council of Blairmore was read suggesting each town to grant free license to drivers of each town. W. L. Rippon, R. F. Barnes, Geo. Pattinson, and the secretary was instructed to write Coleman Light & Water Co. H. T. Halliwell, secretary of Coleman frozen mains on Fifth and Sixth main Board of Trade.

Two Years Sentence on Perjury Charge

Coleman Man Convicted on Evidence Given at Coleman in Liquor Selling Case

Edward Moon was at Blairmore sentenced on the charge of perjury on the information of Sergeant Jones of the A. P. P. It was alleged that on Jan. 14, at Coleman, in the summary trial of himself, his wife and Edward Haddock, on the charge that they had kept liquor for sale, he committed perjury by swearing that he had never been convicted under the liquor control act. Further that, on March 13, he repeated the offence at the summary trial of himself and his wife at Coleman before Magistrate Plunkett, charged that they did keep liquor for sale.

It was alleged that the accused had been twice convicted previously at Nordberg for infraction of the act.

A Tremendous Increase in Public Acceptance

FOR years McLaughlin-Buick has led the world in fine-car sales.

For years the proven McLaughlin-Buick engineering principles have been acclaimed by an overwhelming majority.

But now a tremendous increase in public acceptance has resulted in establishing during the past month, a new sales record for all time.

Because here, in addition to the powerful, triple-sealed, valve-in-head engine, the famous torque-tube drive, the cantilever rear springs and the wonderful sealed chassis, are new, revolutionary standards of performance and riding ease, and new beauty and luxury of Masterpiece Bodies by Fisher!

You have but to drive this great car to understand why it is literally breaking all sales records for cars at or above its price.

Think Of the Future

A condition of prosperity prevails throughout Canada from coast to coast. It is not confined to any one section nor to any one industry or group of industries. There is, in fact, a general tendency to the extent favorable situation probably without a parallel in the past history of the Dominion. This is not to say that everybody or every industry is equally prosperous, or, indeed, that there are not those who do not enjoy prosperity. The contrary is true. But taking Canada as a whole, and in the major activities of its people, prosperity reigns today.

Such a condition is, of course, gratifying. Nobody would have it otherwise, and all desire that it shall be long continued. But there are dangers to be avoided in times of more or less universal prosperity which do not present themselves when times are hard and business depression rather than business activity is in evidence. It is an old and often proved statement that many people who can and have stood strong and true through the strain and stress of adversity, and won through to ultimate victory, have cracked and broken when favored with prosperity and success.

Canada is prosperous today, and it should take full advantage of its present favorable position. The people are optimistic and should continue so. They should continue to show vision, courage, and engage in constructive development. They would be unworthy of their heritage and the future possibilities of their Dominion if they acted otherwise. But they should nevertheless have a care in the enthusiasm of the glowing present not to forget the years to come.

Just as night follows day, winter follows summer, youth grows into old age, and death is the ultimate end of birth, so it is inevitable that, in course of time, depression in business will follow buoyancy. A pendulum swings just as one way as it does the other. It is a wise man, and a wise community, therefore, when times are good and development is the order of the day, takes thought of, and prepares for that future day when retrenchment may become a necessity.

If growth and expansion is artificially pushed too far; if an individual or a community becomes committed to large future obligations in order to further speed up present development, they may find themselves in great future difficulty. All countries, all communities, most individuals, have passed through such bitter experiences. Western Canada has not been immune from them, and those who recall the "boom" days of the past know that the period of adjustment following the collapse of a "boom" was much longer than the "boom" itself, and that in the final analysis the losses far out-weighted the gains.

At the present time all our Western cities, towns, villages and rural municipalities are planning their programmes for 1929. Times are prosperous, the country is growing, and the almost universal demand is for increased expenditures to provide this and that. Today it is possible and comparatively easy to borrow the money to carry such enterprises through and to meet the initial interest charges. But a debt is created which will remain for years to come. When the present buoyancy subsides, when money is less easy to obtain, when depression and some degree of unemployment replaces present favorable conditions in business, will the load be too heavy to carry?

It will be unless care is exercised by all civic and municipal authorities in seeing that the safety line in expansion is not passed, and that expenditures now made are for permanent constructive work which will be revenue producing in the years to come. Extravagance in ideas is no more justified in times of prosperity than they are at other times. It is in those "other times" that the bills really have to be paid.

Developmental works are necessary and are justified in times of prosperity, when they would be suicidal, in fact quite impossible, in times of depression. When depression prevails it is frequently impossible to provide for even imperative and wholly justifiable expenditures. These must be provided when times are prosperous. It then becomes an equally imperative duty to provide them.

But non-essentials, no matter how desirable they may be in other respects, should be carefully considered less citizens, the taxpayers, are unthinkingly swept into the authorization of expenditures which later on they may have cause to bitterly regret.

Such words of warning are unnecessary in times of depression; it is now, when prosperity is with us, that warnings are necessary and should be heeded.

WHEN a cold or exposure brings aches and pains that penetrate to your very bones, there is always quick relief in Aspirin. It will make short work of that headache or any little pain. Just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart. All druggists, with proven directions for various uses which many people have found invaluable in the relief of pains and aches of many kinds.

Prince Has Turned Author

Writes Foreword To Final Volume Of Merchant Navy

The Prince of Wales has turned author, or at least has written a foreword to the third and final volume of the Merchant Navy by Sir Archibald S. Firth. The foreword was written in his capacity as Master of the Merchant Navy and fishing fleet, conferred upon him by the King last year.

Paying warm tribute to the British mercantile marine, the Prince refers to the thrill that he has always experienced in his world-wide travels at the sight of the red ensign. He refers to the work of the merchant marine in the world war as having provided the final test of a heroism unparalleled in history.

A SPRING TONIC AN AD TO HEALTH

You Can Lay the Foundation Of Good Health Now By Building Up Your Blood and Strengthening Your Nerves Through the Use Of Dr. Williams' Pink Pills.

The good old fashion of taking a tonic in the Springtime, like most of the customs of our grandparents, is based upon sound common sense and good medical practice. Winter is always a trying time for those who are not in rugged health. Many men, women and children go through the winter on reserve strength they have stored up during the sunny summer months, and grow increasingly pale and languid as the spring day approach. A tonic for the blood and nerves at this time will do much for such people, by putting color in the cheeks and banishing that tired feeling that worries thousands of people at this season of the year.

It is impossible to be energetic if your blood is thin and weak, or if your nerves are frayed or shattered. You cannot compete with others if you do not get refreshing sleep at night, or if your appetite is poor. You are losing weight. You need a tonic at this time to add to your efficiency now, as well as to save you from suffering later on. And in all the realm of medicine, there is no safer or better tonic than Dr. Williams' Pink Pills. These pills tone and enrich the blood which circulates through every portion of the body, strengthening injured nerves and raising down organs, and bringing a feeling of new strength and energy to weak, easily tired, despondent men, women and children.

Mrs. L. Hupman, Summerville, Ontario, N.S., writes:—"Dr. Williams' Pink Pills have been of the greatest benefit to me. A few years ago I was in a badly run down condition. I became so weak and nervous that I could scarcely go about, and doing my household work left me completely worn out. Everything seemed to worry me. I was in a very discouraged condition, when I began taking Dr. Williams' Pink Pills. These pills helped me, and continuing their use I fully regained my health. Since then I always take a box of them in the Spring to build me up for the hot weather, and always I find the best results. I therefore cheerfully recommend these pills as the best of health builders.

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Newest Invention

Wrist Watch When Worn Three Hours Wins itself

A self-winding watch has been invented by a Lancashire artisan. Finding that seventy-five per cent of watch troubles were caused by dirt or moisture entering through the aperture of the winder, he set out to make a watch which would be completely enclosed. In two and a half years, working in his spare time, he succeeded. The new wrist watch winds itself. To keep it going all the owner has to do is to wear it for three hours a day. It can not be overwound.

Lots of people make trouble and then don't know what to do with it.

-they call him
"The man you can't rattle"

Many successful business men regularly use Wrigley's. The act of chewing has a soothing effect. The healthy cleansing action of Wrigley's refreshes the mouth—gently stimulates the flow of the natural juices—steadies the nervous system.

Farmers Show Interest In Valuable New Book

"Field and Farmyard" Being Distributed Free To Farmers

The new book "Field and Farmyard," which is being offered free to farmers by Imperial Oil Limited, has aroused a great deal of interest among farmers, and is creating for itself a great deal of favorable comment.

The book deals with practical farming problems covering different phases of cropping and cultivating, as well as livestock breeding, and has been judged by all classes of farmers in all sections of the country as a most authoritative work. In publishing the book, Imperial Oil Limited secured the services of a large number of outstanding authorities, and were fortunate enough to have these men, whose names are by-words in Canadian Agriculture, cover individually the subjects on which they are admittedly experts.

Dr. C. E. Saunders, producer of Marquis Wheat, is one of the noted authorities whose views on grain raising are incorporated in "Field and Farmyard." Other men whose reputations are familiar to most Canadian farmers, and who are contributors to the book are: W. L. Carlyle, manager of the E. P. Ranch, Alberta; R. M. Holtby, Ontario; Fieldman for the Canadian Holstein Breeders' Association; Col. Bartley Paul, Hon. President of the Canadian Jersey Cattle Club; Hon. J. D. Dryden, chairman of National Livestock Records Board; Col. Robert McEwen, President of the Canadian Co-Operative Wool Growers' Association; Thomas McMillan, M.P., one of Ontario's most famous farmers; Geo. B. Rothwell, Dominion Animal Husbandman of Experimental Farms; Dr. Robt. E. Jenkins, Manager of the Bonanza Farms, Ontario; Hon. J. D. McGregor, Lieut.-Governor for Manitoba and well-known Western farmer, and many others.

The general information contained in the book has been compiled and written by the experienced Mr. Marshall, formerly Minister of Agriculture for the Province of Alberta. The book has been endorsed and recommended to farmers by Hon. W. R. Motherwell, Federal Minister of Agriculture, and a large demand for copies indicates that in providing at no charge, a tremendous amount of valuable farming suggestions and information contained in Imperial Oil Limited has instituted a service quite unique in the industrial history of Canada.

As a verminiferous effective preparation is Mother Graves' Worm Expeller and it can be given to the most delicate child without fear of injury to the constitution.

Primitive Lights
Before the coming of the oil lamp lighthouses were lit by candles or coal fires. The last of the latter was the lighthouse at St. Bees, where a coal light burned until 1822.

Keep Your Health

TO-NIGHT TRY

Minard's Liniment

for that cold and tired feeling. Get Well—Keep Well.

KILL FLU

by using the OLD RELIABLE!

Minard's Liniment Co., Ltd., Vancouver, B.C.

A new German cruiser to be constructed at Kiel, is to be electrically welded, no rivets being used in any part of the ship.

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectively that they pass through the body unperceived. They thoroughly cleanse the stomach and bowels and leave them in a condition not favorable to worms, and there will be no revival of the pests.

"I wonder why they say 'Amen' and not 'Avoon' today."
"Because they sing hymns and not hers, stupid."

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

Gillett: "Do you ever kiss a girl when she wasn't looking?"

Terry: "Not when she wasn't good-looking."

Use Minard's Liniment for the Flu.

A "Tramp" Of the Skyrays

New British "Plane Built To Carry Bulkier Articles

The bulkier articles can be transported across the world at a speed of 100 miles an hour in a new British aeroplane which has recently passed the fullest flying tests.

Its spacious cabin looks like a railway baggage van, for the machine has been built as a "tramp" of the skyways. It is known as the Vickers Belmore, and can be used as a freight-carrier, for the transport of troops or as a long-distance bomber.

The two Napier Lion engines have 1,000 horse-power, and with extra tanks to carry additional petrol the machine could remain in the air for between seventy and eighty hours.

Electricity supplies the lighting of this aerial pantechon. The sides and roof are reinforced with wood, stays, and the floor, built up of wood in the manner of the Underground railway carriage, is similarly strengthened.

The Oil Of Power. — It is not claimed that Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

Expenditures On Canadian Roads

In 1927 federal, provincial and municipal expenditures on the improvement and maintenance of Canadian roads amounted to \$45,700,000.

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this exalted title. It has to its credit thousands of cases which other preparations have failed to benefit. It brings help even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

Prof.: "Can you give me an example of a paradox?"

Piebe: "A man walking a mile but only moving two feet."

Simple Precautions Against FLU Sore Throat — The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—then the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease—breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

You Actually save money on HEAVIER, STRONGER GATE.

Amazing Gate Value!

As long as you live your Frost Gate will positively defy strain and rust. The entire surface of the frame, the welded joints and fittings are HOT GALVANIZED by our own method used only in the Frost Gate Works. The fabric has the famous Frost Tight Lock. Heavier, stronger hinge bolts, clips and other super strength features. This sturdier, heavier gate costs less per pound of its weight. Investigate this astonishing value made possible by Frost methods and tremendous demand.

If there is no Frost dealer in your neighborhood, write to our nearest office.

WINNIPEG 900 McArthur Bldg. CALGARY 208 Sixth Ave., N.E.

BUDGET PASSED BY MAJORITY OF 24 VOTES

Ottawa.—The budget passed the House of Commons by a majority of 24 votes.

The final division, which resulted in the casting of 107 votes for the budget and 83 against, followed closely along party lines. All the Liberals, Liberal-Progressives, the two Independents, A. W. Neil, of Comox-Alberni, and Henri Bourassa, of Labelle; H. B. Adshad, Labor member for East Calgary, and L. H. Jelliff, U.F.A. member for Lethbridge, supported the government's motion.

In opposition were all the Conservatives, all members of the U.F.A. group with the exception of Mr. Jelliff, all the Progressive members and J. S. Woodsworth, Labor member for Winnipeg North Centre. A. A. Heape, Labor member for Winnipeg North, was not in his seat when the final division took place.

The vote on the main budget motion clinched the most colorful day which the House of Commons has seen so far this session. Two other divisions resulted in the defeat of the sub-amendment and amendment to the main motion, which had come from U.F.A. and Conservative ranks, respectively.

The U.F.A. sub-amendment, which in brief, asked the government to consider the British preference, was negated by the substantial majority of 138. Its support came only from members of the U.F.A. and Progressive groups and the two Labor members, Messrs. Woodsworth and Heape. Against it were lined up Liberals, Liberal Progressives, Conservatives, the two Independents, Messrs. Neil and Bourassa, and H. B. Adshad, Labor member for East Calgary.

The majority against the Conservative amendment was 292. This amendment received its entire support from the Conservative party. All other members in the House were opposed. The Conservative amendment, which was moved by Hon. Hugh Guthrie, expressed regret that the budget made no provision "for reasonably safeguarding and protecting the interests of those engaged in agricultural pursuits or in industrial employment in Canada."

Should Share Research Funds

Portion Should Go Toward Education Says Toronto School Board Member

Vancouver.—A portion of the funds available for research under the direction of the Dominion Government Research Commission should be set aside for investigation of educational methods, was the suggestion made by Mrs. H. Plumtree, member of the Toronto school board, speaking at a luncheon tendered by the Vancouver school board to school officials now here as delegates to the National Council of Education.

Much is said regarding the development of natural resources and the protection of these, but Mrs. Plumtree said the training of the Canadian children was equally important.

Aviator Performs

Dangerous Stunt

Makes First "Outside" Loop Ever Negotiated in Commercial Plane

Minneapolis, Minn.—Charles W. (Speed) Holman, holder of the world's record of 1433 consecutive loops, claims the distinction of having made the first "outside" loop ever negotiated in a commercial plane.

Holman performed the feat at an altitude of 4,000 feet over World-Chamberlain Field here. He used the same Wright Whirlwind-motored bi-plane with which he won the New York-Seattle air derby two years ago.

The outside loop, regarded by aviators as one of the most dangerous "stunts" in flying, had never been completed before except in strong, especially constructed army planes.

Savings Deposits Less

Ottawa.—Savings deposits in Canadian banks decreased by more than \$7,000,000 during February, according to the monthly bank statement issued through the department of finance.

Railway locomotives now weigh as much as 250 tons.

W. N. U. 1781

Long Term Leases For Churchill Lots

Will Probably Be For 90 Years Says Hon. D. G. McKenzie

Winnipeg.—Leases of lots in the townsite of Churchill, terminus of the Hudson Bay Railway, will probably be for 90 years, transferable and subject to revision as to rates at the end of five years, and each ten year period thereafter, it was stated by Hon. D. G. McKenzie, minister of mines and natural resources for Manitoba.

It was intimated a few days ago by Premier Bracken, that the government did not intend to sell lots at Churchill. Interest in the settlement of Manitoba's northern seaport continues to increase, Mr. McKenzie said. The government will concentrate its work on the townsite of Cranberry Portage and Sheritt-Gordon, the minister added.

Will Join Los Angeles To London Flight

Australian Aviator Plans To Accompany Captain William Lancaster

Redbank, N.J.—Mrs. Keith Miller, Australian aviatrix, who flew with Captain William Lancaster from London to Australia, has said she would be second pilot and radio operator on a proposed flight from Los Angeles to New York, London and return.

Captain Lancaster will be pilot on the projected flight and Captain Harry Lyons will be navigator. Mrs. Miller said that she hoped to take off from Los Angeles in June. They plan to reach New York in one hop and fly between the east and west coast on their return without stopping. They will use a tri-motored all-metal closed plane.

Questions Gun Boat On Lakes

Ottawa.—Questions regarding the approach to the Canadian shore in one of the great lakes recently of a U.S. gunboat have been placed on the order paper of the House of Commons by Gen. A. E. Ross, Conservative, Kingston. General Ross requests information as to whether there is an agreement between the two countries for the use of gunboats on the great lakes and if Canada has any armed boats thereon.

Former Doorn Official Arrested

Berlin.—Police admitted that they had arrested Karl Hartung, recently reported to be the "young Kaiser's" wife, Hermine. The arrest had been kept secret. It was reported Hartung had threatened to make "revelations" about conditions at Doorn Castle in Holland.

SUNDAY SCHOOL LESSON

APRIL 21.

COMFORT FOR GOD'S PEOPLE

Golden Text: "As one whom his mother comforteth, so will I comfort you."—Isaiah 66:13.

Lesson: Isaiah 40:1-11.

Devotional Reading: Psalm 30:1-5.

Explanations and Comments

The People of Judah have Suffered Their Full Penalty, verses 1-2.—We pass today in thought from the time when Judah was enjoying great prosperity under good King Hezekiah (our last lesson), to the time when Jerusalem had fallen prey to the Babylonian power and had been laid waste, and the majority of her people carried away into exile in Babylon. Comfort ye, comfort ye my people, saith your God. How great was the people's need of comfort is shown in Isaiah 40:27: "O Lord, who the 'ye' are problematically-minded among the people; certainly not the priests." "The prophets may be numbered, but the Deity who speaks through them speaks as already known and acknowledged: 'My people, saith your God.' By these impersonal voices a personal revelation is made."

Speak ye comfortably to Jerusalem. Speak comfort to the heart of Jerusalem, is Dr. McPadwyn's translation. The prophet went to put hope into the heart of the exiles, to strengthen them by the assurance of a speedy return to the home land. Jerusalem (then in ruins) is "an ideal representation of the people." The city had suffered in and with her exiled people, and their deliverance was hers.—G. W. Wade. Tell her that her warfare is accomplished (her time of service, her exile, is over); that her iniquity, her guilt, is pardoned; that she has received double penalty (ample punishment) for her sins.

"The prophet's charge is laid upon all who would speak of Christ to men. Speak to the heart, not only to the head, but to the conscience. God speaks in the person of his ambassadors. The substance of the message may well find its way to the heart; for it is the assurance that the long hard service of the term of exile is past, that the sin which brought it about is forgiven, and, here wonderful and gracious still, that God's mercy reckons that the ill which follow our faithlessness have more than expired!"—Alexander MacLaren.

Tornado In Arkansas

Death and Destruction Follow In Wake Of Storm

Little Rock, Ark.—A tornado from out of the southwest swept through North Central Arkansas leaving a death toll of at least 20 persons, with indications it might mount considerably. A large number are injured and property damage is heavy. The storm apparently wrought greatest havoc near Swifton, north of Newport, where sixteen bodies had been recovered. Althea, a few miles north of Swifton, also was reported to have had several deaths but telephone and telegraph lines were down, and the reports could not be verified.

At Swifton, the rapidly with which the death toll was increasing caused predictions that it would reach 40 or 50 when all communities in that section had been heard from.

New U.S. Ambassador To London Flight To Great Britain

Appointment Of Former U.S. Vice-President Is Announced

Washington.—Formal announcement of the appointment of former Vice-President Dawes as ambassador to Great Britain has been made at the White House.

The appointment was made after receipt of word from the state department that the British government had advised that the appointment of Gen. Dawes would be entirely acceptable to the King.

NEW RECORD IS SET IN C. N. R. REPORT FOR 1928

Ottawa.—The railway operating revenue of the Canadian National for the year 1928 reached the record figure of \$276,631,921. After payment of operating expenses, amounting to \$218,248,343, taxes amounting to approximately five million dollars and other charges, the total operating income was \$53,213,729 compared with \$40,789,724 in 1927.

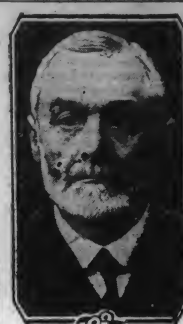

The report of Sir Henry Thornton, chairman and president, covering the operations of the system in 1928, was tabled in the House of Commons by Hon. Charles A. Dunning, minister of railways and canals. It tells of the progress made by the publicly owned system in its various departments.

The ratio of operating expenses to gross earnings in 1928 was 78.8 per cent as against 81.75 per cent in the previous year.

The gross earnings exceeded those of 1927 by \$27,915,546, (11.2 per cent). Freight traffic produced \$209,439,962; passenger traffic, \$34,187,023; express, \$13,307,373; mails \$5,099,212, with miscellaneous operations produced \$16,598,348. Passenger revenue increased 1.7 per cent over the figure for 1927. Gross express revenues were increased by \$695,947 (5 per cent).

The total Dominion grain crop harvested in 1928 was approximately 1,200,000,000 bushels. The report estimates an increase of nearly 10 per cent over the figure for 1927. For the calendar year grain deliveries on the western region of the C.N.R. were nearly 37 per cent over the former record made in 1923.

APPOINTED REAR-ADMIRAL

Admiral Sir Montague Browning, who has been appointed rear-admiral of the United Kingdom in succession to Sir Stanley Colville. Sir Montague Browning was with the grand fleet during most of the world war.

More Settlers Going Into Peace River

Figures To Date Show Large Increase Over Last Year

Edmonton.—Nearly 1,000 settlers with a total capital estimated at approximately \$1,150,000, have gone into the Peace River country as new settlers to date this year, according to colonization officers here.

The real rush of settlers commences in April. Last April 1, 200 settlers went in. This April experience estimates place the figure at 1,000. To good start already made this month indicates that this estimate is likely to be exceeded.

The settlers are in the majority of cases Canadian and American of excellent type, probably 80 per cent of them are seeking homesteads, which means that the great bulk of the settlement will be on new land.

Lands beyond railway extensions both north and south of the Peace are favored, the homesteads being about equally divided between Fairview, on the north side of the river, and Hythe, on the Grand Prairie extension south of the river.

Money For Immigration

Over Million Dollars Spent In British Isles In 1928

Ottawa.—A total sum of \$1,016,202 was expended by the department of immigration in the British Isles in 1928. The sum expended by the same department on the continent of Europe alone last year, was \$75,796,67. The amount expended for obtaining immigrants in the United States was \$392,157. The aggregate amount spent by the immigration department from 1921 to 1928 was \$5,618,024.94.

The information was given in the House of Commons by Hon. Robert Forke, minister of immigration and colonization.

Income Tax Collections

Ottawa.—There was an increase of \$2,851,250 to the total income taxes collected in the year ending March 31 last, as compared with the year before. It was announced by Hon. W. D. Euler, minister of national revenue, in a statement issued. The total for the past year was \$59,422,297.

YOUNG BRITISHERS FOR CANADA

Thirty young men, recruited from the industrial areas of Great Britain for the farming lands of Canada, on their way to Norval, Ont., where they will be given special farm training before assuming their roles as farmers. They were brought to Canada on the C.P.R. liner "Duchess of Richmond," under the auspices of the national headquarters of the Y.M.C.A. in England. The picture here shows a typical group on the train taking them to their new homes.

Starts Tenth Annual Tour

Tree-Planting Lecture Car Coming To Western Provinces

Ottawa.—Bound on a journey of eleven thousand miles, the tree-planting lecture car of the Canadian Forestry Association has left Ottawa and will spend the next six months in daily travels to Western communities. This is the tenth annual tour of the lecture car and to intensify the educational effect, talking pictures have been installed.

The lecture car is built with a sloping floor and with seats for 125 people.

Electrical generators, radio and other machinery are able to project talking pictures at hundreds of points on the western railways where movies are seldom seen. The instruction given in the car is extended to groups of school children who frequently require six meetings daily to accommodate them. Last year the Canadian Forestry Association visited 200 prairie communities, giving instruction in the building of shelter belts and the beautification of farm homes.

Leaves Estate To Medical Sergeant

Army Doctor Remembers Man He Met During War

Toronto.—A friendship established during the war between a medical sergeant and a superior officer, the "M.O." is recalled through the probate of the will of Dr. W. H. Scott, of Carrot Creek, Alta.

The will provides that P. W. Houghton, D.C., M.M., and Bar, Legation of Honor, and former medical sergeant of the First Battalion, re. of \$5,000 and a section of land at Carrot Creek.

Houghton met Dr. Scott during the war when the former was confined to hospital with wounds. He saw nothing more of the doctor until 1926, when they met in Galt, Ont.

RUST RESISTING WHEAT SOON TO BE AVAILABLE

Winnipeg.—Efforts of agricultural scientists to develop a rust-resistant wheat, which would save millions of dollars annually, are meeting with success.

A meeting here of the Associate Committee on Rust Research, organized under the auspices of the Dominion Department of Agriculture and the National Research Council, reports delivered showed that rust-resistant wheats which appear to be good baking and milling qualities have been secured through the efforts of the plant breeders engaged on the problem and now await development.

Paying tribute to the work of Canadian scientists, especially those working on agricultural problems, Dr. J. H. Ridd, deputy minister of agriculture of the Dominion, said that profound study and unceasing application to the problems had at last produced results which seemed in a fair way to solve the difficulties in the way of combating the rust menace. This, he added, was obtained through the close co-operation of the plant pathologists and plant breeders.

During the sessions of the committee it was reported by L. H. Newman, Dominion cerealist, that having tests on some 36 lines of Marquis Cross rust-resistant wheats are under way at Ottawa. Of these several showed real promise and some of them excel in baking qualities.

Members of the committee today witnessed a demonstration of a newly-developed rapid electronic method for the determination of moisture in wheat. The demonstration was conducted by Professor Burton, of the University of Toronto, and Arnold Pitt, inventor of the instrument. The instrument is not yet fully developed, but gives great promise when complete details of its operation have been worked out.

Tests developed last summer in Manitoba showed that sulphur dusting of grain is effective in controlling rust, but further research work is necessary for the development of a dusting schedule. Small plot, field and greenhouse tests were conducted. Both horse-drawn and motor-driven machines were used.

At the concluding session of the conference, Dr. Girdlestone announced that a conference of plant pathologists conducting research in plant diseases other than rust would be held in Edmonton some time during the autumn.

TWO DEFENCES FOR SINKING OF THE "I'M ALONE"

Washington.—Two defences for sinking by coast guard vessels of the run runner "I'm Alone" are set up, in a lengthy note prepared by state department officials in answer to the protest of the Canadian Government.

The draft of the note waits only approval of Secretary of State Stimson. It is understood that Mr. Stimson has examined the draft, but whether he made any changes is not known. The note is expected to go forward soon.

The note supports the coast guard in sinking of the "I'm Alone" in the Gulf of Mexico, with an exhaustive review of previous run treaty ship seizures.

It contends in the first place, it is understood, that three Canadian ships seized in recent years, the Vincos, Gold Harbor and Pescawha, were halted within the treaty limit, and were captured on the high seas. These seizures were approved by United States courts.

The note argues that the principle involved in these seizures is the same as that in the case of the "I'm Alone" and that Canada did not protest these incidents. The state department, it is understood interprets the failure to protest as a tacit admission that seizure on the high seas under such circumstances is a proper action.

The second defence involves interpretation of the run treaty between the United States and Canada. The treaty reaffirms existence of the three-mile international limit, but it expressly grants to the United States the right to stop, search, and if the search warrants, to seize liquor boats within an hour's steaming distance of the American shore. The note contends the treaty implied the right to employ necessary force in compelling liquor vessels to submit to being stopped, searched and seized by guards of the right to stop, search, and seize.

Must Comply With Law

Canadians Have To Pay Head Tax To Enter States

Washington.—The recent ruling of the Supreme Court, upholding border-crossing privileges from foreign-born citizens of Canada is construed by immigration service officials to have also a considerable effect on native-born Canadians.

R. C. White, assistant secretary of labor, said that while the court's ruling confirmed the admitted right of native-born Canadians to cross the international border at will, in so doing they would have to establish the status of immigrants under United States law.

"The chief effect of that will be to require a Canadian to pay the \$8.00 head tax as an immigrant and the \$10,000 consular visa fee," Mr. White explained. "The difficulties have been occasioned by the practice of Canadian residents on entry of Canada in obtaining employment in the United States and going to and from their foreign homes to work and back daily. The native Canadian if he intends to continue such employment in the United States will have to pay the fee and undergo the examination, but once that is done he will have a practically unlimited right to border-crossing."

Toronto Student Wins Prize

Awarded Thousand Dollar Fellowship For Essay On Economic Problem

Montreal.—Miss Kathleen Best, of McMaster University, Toronto, won the \$1,000 prize offered by the Royal Bank of Canada for the best paper written by a student of any Canadian university on any of certain specified economic problems. Miss Best took as her subject "Economic Aspects of the St. Lawrence Waterways Plan."

The prize is in the form of a \$1,000 fellowship to enable the winner to pursue her studies in any Canadian University she may select.

N. H. Peabody, University of Saskatchewan, was sixth.

Thinks Pact Necessary

Starnburg, Germany.—Count Von Bernstorff, chairman of the German delegation to the League of Nations disarmament preparatory conference, on the eve of his departure for Geneva, expressed the opinion that the out-law war pact was necessary and should be followed by world disarmament and the adoption of a general pact for settling all disputes by legal means.

NATURALLY, people expect more of a BIG Six. They expect stamina and dependability, as well as beauty and performance.

Men who give a car hard usage are being impressed by the dependability of Pontiac Big Six. And the longer they drive it the deeper grows their respect.

They look for Big Six dependability—and they get it... plus the smoothness, the power and the rich riding comfort that only General Motors and Fisher Body builders could provide at Pontiac price.

NOTES AND COMMENTS

Good deeds or useful deeds are remembered long after the doer has passed to other scenes of labor. An example of this is seen in a former minister of a neighboring town. Occasionally reference is made to his work in putting a Tuxis hockey team on the map in the Crows Nest Pass, and his name is so well known locally that anybody who knows who's who will remember him. Only last week reference was made in a striking way to his good work by a weekly newspaper in another part of the province. Which serves to show that after all the church to be really useful must show an interest in the every-day affairs of the people. A little ordinary every-day human interest will go a long way towards awakening a responsive feeling. And the church must show it if it wishes to bring people to church on Sundays.

At Fernie a tempest in a teapot has been raised by one or two apparently anxious to get the scalp of the chief of police. Cross exaggeration appears to have been made of certain happenings which are likely to take place in any mining or other town, and some "pussyfooters" have attempted to unload the blame on the police. The trouble often is with self-righteous people that they will attempt to hide behind somebody's skirts while they pride themselves on trying to clean up public morals. Hypocrisy is detestable, and defeats itself.

Editor Sullivan at Cranbrook issues one of the most interesting weekly newspapers which come to this office. And what is very pleasing to note, he is receiving generous support from the business houses of that town in the way of advertising, his paper running from twelve to sixteen pages weekly. Evidently a continued and aggressive campaign is maintained every week to make Cranbrook a shopping centre, and The Courier reflects the spirit of the town. Pick up any local newspaper and you get a mirror of local business, social and other activities from its columns more correctly than through any other source. There is an object lesson in it, which is brought home very clearly to any person who will take a number of country weekly newspaper exchanges and just browse through them.

With over a thousand men working in two mines here there will be very much increased business activity in all lines for some time.

There should be an old timers association and probably Dad Graham would rank the highest in qualifications for president. He has seen many come and go; poked his head out of an upper storey window when the Frank slide came thundering down in the gray hours of early dawn, carrying death and destruction, and felt the immense pull of the air current. He has many experiences of the days of the pack-horse before the iron horse came rushing through the mountain passes, and through it all has maintained that cheery disposition and ability to do a day's work which makes for real happiness. Moreover, he is still one of "the boys," and always willing to spend his own time in any community welfare effort.

Life in the mountains is a great tonic. It makes man realize what a puny creature he is after all, despite the wonderful progress made in the fields of invention and science. It knocks the self-conceit out of a man when he gazes on Nature's handiwork, and the massiveness of these mountains awe him into silence. If a man has any "side," life in the mountains is a great thing to cure him, for here the forces of Nature through the centuries are so boldly exemplified, creating lasting impression on resident and casual visitor alike.

The extravagant nature of cigarette advertising in the statements and testimonials published is bringing forth protests in some quarters. Really some of the statements made with a view to recommending the smoking of cigarettes are ludicrous in the extreme, and make one involuntarily exclaim "Bunk!" Smoking, like consuming intoxicating liquor for refreshments, is one of the weaknesses human nature is prone to, and many secure some comfort from their use, but to extol the virtues of cigarettes and to encourage the young in their use is going too far. We acquire bad habits quite easily without being made believe that they are virtues to be admired.

Coleman business men should co-operate and give their support to the combined efforts of Crow Boards of Trade to make known this route through the Rockies as the Trans Canada No. 1. Tourist traffic is worth millions of dollars and business men along the Crow route can get a share of it. And for scenery, we certainly "have the goods."

Lumber The Backbone of the Home

Give your structure a good foundation and frame, and you have mastered the greatest attributes to permanency; the greatest assurance against depreciation and early repairs.

We're expert in advising on the best selection of woods from standpoints of beauty, durability and economy.

The best practice is to let us plan with you in advance. Our experienced judgment is sound, our products are thoroughly reliable and we can show you how to cut costs without sacrifice of substantial construction.

ALBERTA

Was Honored for Service to Royalty

Walter Reginald Baker, C.V.O., former secretary of the Canadian Pacific Railway and the last surviving member of the original traffic organization of the line, died on April 1, at his home in Montreal. Mr. Baker entered the service of the C.P.R. two days after the organization of the company in 1881 and retired at his own request on January 1, 1917. He was in his 77th year.

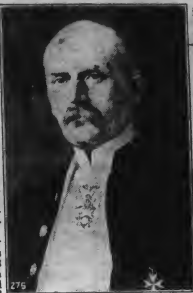

During his thirty-five years' service with the C.P.R., Mr. Baker was assistant to the general superintendent, assistant to the president, assistant to the vice-president, and secretary. Previous to his association with the railway, he was private secretary and controller to Lord Dufferin, Governor-General, 1874-78.

Born in York, England, on May 25, 1852, Mr. Baker came to this country alone at the age of 13 years. The boy began to establish a career for himself early, and after passing through several stages of progress towards success, found himself, at the age of 22, private secretary of His Majesty's representative in the Dominion. Later he became attached to the Treasury Department and was assistant secretary of the Treasury Board at Ottawa just before the C.P.R. was organized.

In the historical organization of the railroad, Mr. Baker was one of the principal actors. Below he died, the former secretary put down on paper, as the last surviving member of the original group, just what were the circumstances surrounding the beginnings of the great company's organization. The company was formed on February 15, 1881, and the organization meeting of the board of directors was held two days later. Charles Drinkwater was named secretary of the company, the first official to be appointed, according to the account of the historical event as related by Mr. Baker.

Mr. Baker's Story

Duncan McIntyre, later first vice-president of the company, was a member of the "Syndicate" which had planned the organization of the C.P.R. He had made a promise to Mr. Baker some time before that, if the "Canadian Pacific

Late W. R. Baker, C.V.O.

fic Railway venture" came to anything, he would "remember him."

In his account of the matter, Mr. Baker recounts that "the matter had passed out of my mind" when on the night of February 15, 1881, he received a message from Mr. McIntyre. "I was busy late at night, in my office in the Eastern Block at Ottawa, preparing the estimates for Parliament, when a boy walked in with a telegram," Mr. Baker related.

Following the instructions contained in the message, Mr. Baker went to the "Bank cottage"—the little house attached to the Bank of Montreal for the use of members visiting Ottawa—and there met the little group of great builders of the great road.

There seated at a table were Donald Smith, later Lord Strathcona; George Stephen, later Lord Mount Stephen; R. B. Angus and Duncan McIntyre. The upshot of his interview with these historic figures was that he went to Winnipeg with A. B. Stickney, general superintendent of the C.P.R. western division, as accountant on construction, and auditor of operation.

"The salary was 40 per cent. better than I was getting in the civil service," Mr. Baker explains

in his autobiographical account, "as I said at once 'I will go wherever you want me to go.'"

On the way to Winnipeg there were short stops at Chicago and St. Paul, where Mr. Baker had an opportunity of looking into the American system of railway accounts. A special train took the party to Winnipeg. Those with Mr. Baker were: A. B. Stickney, general superintendent, William Harder, assistant traffic manager, Joel May, superintendent, and F. C. Butterfield, master mechanic. "This party was the original traffic organization of the Canadian Pacific Railway," Mr. Baker recorded. "Before we arrived at Winnipeg," he continued, "Mr. Stickney decided that he wanted me to act as his assistant and I was accordingly appointed to the position of assistant to the general superintendent."

Various Appointments

In Winnipeg, Mr. Baker held several positions successively in the C.P.R. He was purchasing agent, assistant to general manager, local treasurer, assistant to general superintendent, executive agent and filled several other positions. He was also connected with the Manitoba and North West Railway. In 1901 he left Winnipeg for Montreal. On that occasion he was presented with a solid silver service by the business community of the western city.

During his connection with the railway, Mr. Baker came into contact with several royal personages. He was in charge of the royal train over the C.P.R. lines during the several visits of the Prince and Princess of Wales, now the reigning monarchs; Prince Arthur of Connaught, and Prince Fushimi. In return for his services to these royal visitors he was presented with several testimonials and received several titles. Among his titles were: Commander of the Royal Victorian Order, Commander of the Order of the Sacred Treasure of Japan, Esquire of the Order of St. John of Jerusalem, and Freeman of the City of York.

He held audiences with Their Majesties King George and Queen Mary at Buckingham Palace in 1911.

Local News

J. H. Boulton and son Foss returned on Monday morning from Ontario, and Mrs. Boulton will follow about May 1, accompanied by Mr. Boulton's mother. Mrs. Boulton and Foss spent since last July till early in March in England and North Wales, visiting relatives, and during her stay her father and a brother died, marring an otherwise pleasurable visit. At present she is visiting with relatives in North Bay, Ont., prior to returning to Coleman. With Mr. Boulton she spent a few weeks visiting his relatives in Perth, Ont.

Mr. and Mrs. G. R. Powell on Monday evening observed their 38th wedding anniversary by having a few friends to play bridge. The rooms were given a warm touch of color with white and red carnations. For many years before coming west they lived in the picturesque town of Little Current, Manitoulin Island, Ont., and coming west, lived in Taber for several years. During their residence in Coleman they have made many friends who join in wishing them many happy returns of their wedding anniversary. On Monday evening the prizes were won by Mrs. J. Emmerson and Mr. T. Flynn.

Just as people around town were beginning to really know Donald Stewart, ledger keeper at the Bank of Commerce, word comes for him to move to Macleod. Donald came out six months ago from Scotland with the bloom of the heather on his cheeks an enthusiasm to be come a real "Canuck," Coleman being the first place where he received his initiation into the ways of the west. Now the man who moves men around places another genial, young gentleman in his place named McDonnell, who though having a Scottish prefix to his name, proudly intimates that he is of Irish ancestry, though born in this western country.

Miss Constance Hope, a bride-elect of next week, was complimented on Monday evening, when a surprise party invaded her home. During the evening a beautiful silver flower basket was presented to "Connie" on behalf of those present. Three tables of whist were much enjoyed by all, after which refreshments were served. The prizes were won by Mrs. Cornett, Miss Hope and Mrs. Cox. Those winning the pretty prizes presented them to the bride elect. Present were Mesdames Bowen, Burrows, Cornett, Cox, Derbyshire, Greenhalgh, Milly, Neilson, Nash, J. gimboham, Lonsbury and Bowling.

Human Souls for Sale

Husbands and wives separated and sold to the highest bidder. Infants torn from their mothers' breasts. Not hearsay, not fiction, but FACTS. Facts that spread one of the greatest blots on America's history, facts that brought about THE BIGGEST CIVIL AND POLITICAL UPRISING IN THE HISTORY OF THE WORLD.

There is to be presented at
Palace Theatre
Friday and Saturday
April 26 and 27

a motion picture based on the greatest crisis through which our country has ever moved. A motion picture based on a book of which more copies have been printed and circulated than any other publication in the world with the exception of the Holy Bible.

The picture has been produced by Universal and is now the sensation of the world. It was eighteen months in the making. Its total cost was NEARLY TWO MILLION DOLLARS. It is an epic of the screen, a living, breathing, poignant transcription of the darkest hours of our nation's past.

Here and There

The Royal York, largest hotel and tallest building in the British Empire, will be open shortly in Toronto. It is a self-contained community having its own bank, brokers offices, stores, power station, printing plant, recreation centres, and so on.

Gas from wells of the Bow River and South Saskatchewan Valley to the south and west of Medicine Hat may provide helium gas for the British Air Ministry.

The Boy Scouts' knowledge in woodcraft may be turned to a new use in Nova Scotia where the provincial government forestry department propose to enlist their services in the planting of 1,000,000 trees to reforest 1,000 acres of land.

The Canadian Pacific has in excess of 51,000 employees and its yearly pay-roll is approximately \$125,000,000.

"The announcement by the Atlantic steamship lines of reduced rates on cabin ships coincides with the opening of an Atlantic travel season in which the cabin type of ship reaches a standard of equipment and accommodation never hitherto reached and during which more cabin ships than ever will sail to and from Europe. The advent of reduced rates also harmonizes with the policy of many world governments to abolish passport visa fees. Ocean tourist travel is quickly getting back to pre-war conditions but greatly enhanced by bigger and better ships," says William Baird, Steamship Passenger Traffic Manager, Canadian Pacific Steamships Limited.

Orders for Canadian cheese called from Great Britain, demonstrate its popularity overseas and the confidence placed in our grading methods, according to Doctor J. A. Buddick, Dominion Dairy Commissioner, who states that the British demand for Canadian cheese is at the peak.

BEAUTIFY CANADA

Clean Up, Paint Up, Keep It Up --- Increases the Value of Your Property

THE DRIVE TO FINISH OLD MAN DIRT IS ON

Greatest Effort in History of Canadian Cleanliness
Includes Hundreds of Communities

The greatest effort in the history of Canadian cleanliness is on! Cleanliness has a history. It's influence can be traced down the ages. Those races that were Clean were the races that were Masters.

The Athenians, with their baths and beautiful homes conquered the Persians, with their unkempt beards and dirty skins. The Romans, with their aqueducts, their barbers, their gardens beat back the barbarians with their goat skins and greasy fingers.

Louis the Fourteenth was the daintiest monarch France ever had and one of her mightiest. Fifth kept the Panama Canal from being built years before it finally was. Bolshevism flourished when the dirty and the ignorant gained control in Russia—sanitary herds in filth and squalor.

Cleanliness has always been po-

tent. Modern sanitation saved millions of lives in the great war. Real people, the wise, the leaders in progress, always have fought for cleanliness. At times it has been a sporadic fight, a skirmish. A clean man was handicapped by a neighbor who let his premises run wild. But co-operation has been brought to play at last.

This year, in Canada alone, hundreds of villages, towns and cities are campaigning for cleanliness, health, and beauty. They are not doing so for a day or a week but in a continuous campaign. There is a steady pressure.

Tin cans, flies, refuse, dirt, waste paper, unsightly buildings, unpainted surfaces are taboo. The drive is on. I won't stop.

Join the forward movement. Clean Up, Paint Up, and Keep It Up. Make the old enemies, Dirt and Disease, and Unsightliness abdicate forever.

The Use of Paint

Lessens Farmer's Cost of Doing Business

The farmer, like the manufacturer, must employ the most efficient and economical methods of doing business if he is to prosper. When he keeps track of costs he finds that by building of better material, buying better implements, and then taking care of them, he increases his power of production and lessens the drain on his income.

Next to the purchase of good materials, the use of good paint is the farmer's best insurance; it protects his property and equipment against the rapid deterioration caused by wear and weather. The protection and appearance of barns, fences, windmills, wagons, tanks, etc., are just as important as the careful upkeep of factory tools and machinery, and depreciation here should be figured as carefully by the farmer as by the manufacturer.

A few cents invested in paint and a little work each season will soon show in the lengthened life of the equipment to say nothing of the satisfaction you will take in its improved appearance. Here is a list of paints that it will pay you to keep on hand:

Two-quart can of buggy paint in red and black, for painting up wagons and buggies.

A small can of aluminum paint, for interior iron work, such as stalls, stanchions, etc.

A small can of implement or spar varnish.

A half-gallon can of metal protective paint, for metal buildings. A good graphite paint is best for this purpose. Paint over regularly all such exposed metal parts as hoops, turnbuckles, outside hinges, door-hangers, iron hitching posts, etc.

A gallon can of barn color or house color for general repair work. It is well also to periodically treat the inside of staved silos with the special compounds prepared for that purpose.

The life of fence posts can be prolonged three times if the lower part is treated with the compound used on silo staves. This can be most easily done by taking a full barrel of the preservative, putting half in another empty barrel, taking the heads out of both barrels, and letting the fence posts stand in them over night. This treatment will make the poorest wood last longer than the best chestnut.

It has been proved that the painting of good galvanized wire fence doubles its life. In putting up a new

woven wire fence the painting can be done very easily by making a shallow trough that will take in the roll of wire fencing. Turning the roll around in the trough and pouring the paint over it at the same time will thoroughly cover every part. A good metal paint is best for this purpose.

A paint which makes concrete sufficiently non-absorbent to shed an ordinary rain greatly enhances the value of concrete buildings for cow-stables, granaries, dairies, etc. The absorption of water through the walls has been the principal objection to such buildings in the past. Concrete paints come both in natural pigment color and in several pleasing shades.

It is never advisable to try to paint an old shingle roof unless it has been previously painted, because the water gets under the shingles causing them to rot and curl up. It is always well, however, to paint on a new shingle roof to dip the bundles into a properly prepared shingle stain; this is especially true now—days as the quality of shingles is much poorer than formerly.

It is good policy not only to prevent deterioration, with paint, but also to forestall paint troubles. The commonest of all paint troubles is peeling, the chief cause of which is moisture, and moisture in turn is due to:

1. Dampness in the Wood. This means not only wood which is damp to sight and touch, but wood improperly seasoned, recently exposed to rain or fog or dew.

The pores in kiln-dried lumber are open and will soak up moisture; for this reason allow a new building to stand a month or two unpainted.

In short, if there is moisture in wood, heat will drive it either out or in. If heat on the inside of the house drives it outward the paint will peel. 2. Dampness Back Of the Wood. This is commonly due to green plants. Too often in a hurry to complete a house the painters are put to work on the outside while the plasterers are finishing the inside. To complete the rush, about the time the paint is dry the furnace is started to dry the plaster. The moisture must find an outlet and is driven out through the exterior woodwork, carrying the coat of paint with it.

3. Ochre Priming Coats. Common ochre is the cheapest pigment, and when one remembers that the priming coat is the foundation on which the finishing coat depends, he does not have to be a paint manufacturer or dealer to appreciate how absurd is the statement so often made: "Anything is good enough to prime with." Cheap ochre is nothing but clay stained, which makes a slippery, brittle paint.

4. Old Paint Loosely Attached To the Wood and Not Thoroughly Cleaned Away: If old paint is not firmly attached to the wood the contraction in the drying of the new paint will peel it off. Repeat before the old paint begins to let go. It's poor economy to delay repainting.

In case the old paint is brittle, scrape, sand-paper, and wire-brush all loose particles before repainting. If too far gone remove with a paint-scraper's torch. Always remember three thin coats of paint are better than two thick ones. The thick coats may

save a few dollars in the beginning but may cost more than double in the end.

5. Fat Residues Wood Not Properly Seasoned Or Prepared For Painting. This is a recent trouble due to the scarcity of well-dried lumber. The chief trouble is with yellow pine, which is full of turpentine. In the painting, it is the resin that causes the trouble. It mixes with the paint and makes it brittle.

The knots are the worst spots and should be coated with shellac before painting. Turpentine dissolves resin. This fact suggests much turpentine and little oil in the priming coat, and perhaps more turpentine than usual in the second coat, but, when every care is taken, paint will sometimes peel on yellow pine, where it is no fault of the painter or the paint. Liberal use of turpentine and vigorous use of the brush to work the paint into the wood are necessary to success on yellow pine.

6. Boiled Oil. Never use boiled oil in the priming coat; even when it is genuine boiled linseed oil, its preparation gives a glossy, varnish-like surface, and the priming coat should surface, and the succeeding coat will not adhere to it. Boiled oil should never be used for any coat in outside painting.

Paint may fail from causes other than those named because of application on dirty or greasy surfaces; because of leaky roofs; because of the use of adulterated linseed oil and poor dryers; because the coats are too thick, or because the under-coats are not dry—but the majority of cases are covered by the causes specifically named in this article.

BABIES GAIN BY THIS SIMPLE METHOD

Doctors say, souring waste in baby's digestive tract is usually lack of any fault in the food, but according to schedule. And the best proof, this is true, is the quick way, weak, fretful, puny babies improve when you cleanse their stomach and bowels and put them in order with a few doses of purely-vegetable, pleasant-tasting, Fletcher's Castoria. This gentle, harmless preparation is the doctor's first thought to relieve those ill of babies and children, such as colic, gas, constipation, diarrhea, colds, etc. Just be sure you get genuine Castoria in the box that bears the Fletcher's signature.

Home Decoration

Large patterned material should be chosen only for large rooms, and then sparingly, as one is apt to grow restless from seeing too much of it. This does not mean that large designs are bad, but that they require extreme care and skill in their selection, whereas a small pattern is usually safe.

We have observed that the value of anything depends a good deal on whether you are wanting to buy it or, trying to sell it.

Heart Trouble Hands and Feet Numb and Cold

Mrs. Wm. Fowler, Auburn, Ont. writes:—"Several years ago I was troubled with my heart and nerves, so bad, at times, my hands would become numb and cold. I took doctor's medicine, for a while, but it did me little or no good. I happened to see

advertised and started taking them at once, and continued for some time and since then I have had no return of my trouble." Price 50c, a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Rules For Fire Prevention

Do not permit rubbish, greasy rags, paper and useless waste to accumulate in or around buildings.

Do not allow matches kept in your homes, offices and stores in other than metal boxes. Use safety matches only. Send your rubbish to the dumping ground.

Do not allow children under ten years of age to use matches.

Do not use lamps and lamp burners that are not clean.

Do not tamper with or extend electric wires; employ an electrician.

Do not keep gasoline in other than air-tight cans painted red.

Do not fill tank of gasoline stove when lighted and fill by daylight only.

Do not permit a rubber tube connection to a gas stove.

Do not empty ashes in other than metal cans.

Do not carelessly throw cigar and cigarette stubs where they could cause a fire.

Do not fail to warn your children of the dangerous bonfires. Loss through preventable fires in the United States is \$250,000,000 which, however, is exceeded by the annual loss through the lack of painting—according to Prof. H. H. King, who has conducted paint tests for several years for the people of Kansas, at the Kansas Agricultural College.

Clean-Up and Paint-Up campaigns reduce fire losses and insurance charges—improve property values; remove unsafe buildings; save the fly; make school and home gardens; make cleaner alleys and yards; educate children in fire prevention and clean-up measures; plant trees; collect and utilize waste; make more attractive and safer homes and places of business, and develop a community spirit that permanently insures a cleaner, safer, healthier and more beautiful town.

Don't Neglect Painting Up

Make the Paint Brush the Partner Of the Scrub Brush In Your Campaign Against Dirt. Paint-Up goes hand in hand with Clean-Up. When you have dusted and swept and mopped the corners and the open spaces, put the paint brush to work. It will be easy to keep things clean then. A painted surface does not accumulate dirt like an unpainted one does. Besides, dirt is more obvious on a painted surface, and less apt to be ignored. Paintiness is the best incentive to cleanliness—which you know is "next to godliness."

Make the paint brush the partner of the scrubbing brush. They make a whole team. Enlist both of them for Clean-Up and Paint-Up. It doesn't need much argument to convince a man that his house and his barn and his whole farm will be worth more money if the buildings are kept in the best order.

Don't Forget the Garden

You Can Make Enough Out Of The Back Yard To Paint Your House

Don't forget that garden this year. Gardens save thousands of dollars for householders, they conserve and add to the food supply and give many persons a healthy and inexpensive form of outdoor exercise.

Cultivating the back yard regularly will save enough money to save the house for years, by painting it regularly. The work is congenial and creates contentment—and "garden sass."

Clean-Up and Paint-Up On the Farm

The man who owns a farm or lives on one should be just as much interested in Clean-Up and Paint-Up as the city householder. And the incentive to start such campaigns has been just as marked in the rural districts as in the more thickly populated ones.

Farmers everywhere are being urged to remove ramshackle buildings, repair and paint those that remain, trim hedges and trees, and clean and paint tools and machinery.

Hoisting of the National flag in Manitoba on December 31, placed the greater part of China under the Nationalist government.

Toothbrushes and handkerchiefs have figured among the tokens of valor presented by Chinese generals to the troops under their command.

These All Count

Here are some pointers for citizens who would regenerate their community with a real Clean Up and Paint Up campaign:

1. Take away all the ashes and trash from your back yard immediately. Send your rubbish to the dumping ground.

2. Suggest to several men with teams, that they drive through the alleys with a sign, "Clean-Up Wagon" on their wagons; also a bell calling attention. People are only too glad to pay such a man for hauling their trash away.

3. Burn all rubbish that will burn. Clean your vacant lots and alley ways.

4. Make your street and parking lots as trim and well kept as possible.

5. Refrain from throwing old paper, banana and orange skins into the streets.

6. Plant some grass and flower seeds to make your home beautiful.

7. If your store front is dingy, paint it. Nothing will do more to improve the appearance of a town than the liberal use of paint.

8. If there are unnecessary, unsightly sheds in your back yards, tear them down. They detract from the beauty of your home and the town. Open spaces and fresh air are better.

9. If your walk is an eyesore to those travelling over it, repair it or build a new one.

10. Trim hedges and trees and spray trees.

11. Paint and whitewash barns, poultry houses, outbuildings, etc.

12. Paint tools and machinery.

The local "Clean Up and Paint Up" campaign offers the most direct and practical and permanent avenue through which women, organized or individual, can work for homes and home towns beautiful and sanitary.

Keeps Floors Beautiful

Beautiful floors are largely a matter of prevention—the great secret is to put them in perfect condition and then keep them that way. Doorways, passages and tracks become worn and unsightly first. You can keep these spots looking well by waxing them frequently. This requires but little time and effort if a good prepared wax and floor polishing brush are used.

The Clean Town Is the Healthy Town

Germes Lurk In Filth and Clean-Up and Paint-Up Will Chase Them Away

It long has been a well known fact that dirt and disease walked hand in hand. Influenza, typhoid, pneumonia, tuberculosis, and other germ diseases exist because dirt exists. Get rid of dirt, and many diseases will be wiped out.

Cleanliness and the liberal use of the paint brush and mop and broom will make it hard for dirt to exist. If your town is spotted it will be a healthy town. And there is no better advertisement for a community than a low death rate.

Make your community clean and healthy. Wide-awake Canadian towns are conducting Clean-Up and Paint-Up campaigns, and Home and Community Beautiful campaigns as much for the sake of health as for the sake of beauty.

In Alameda, Cal., campaign workers went to the length of placarding houses with the inscriptions, "Clean," "Dirty" or "Filthy," as the case might be. It was a heroic treatment but it proved effective.

Make your town a clean town and you will also make it a healthy one.

Ask Your Dealer for This Brand

Winnipeg Edmonton

For Health's Sake

Clean - Up and Paint-Up—Guard Against Epidemics By Removing Their Cause

Tuberculosis and other germ diseases are generally brought about by dirt and filth. The germs of tuberculosis cannot live where there is sunlight, cleanliness, and fresh air. The scrubbing brush, soap and water, paint and whitewash are deadly enemies of tuberculosis. The easiest way to get rid of the germs that have nested in your house, and around your premises is: Clean-Up and Paint-Up.

The cleaning out of filth will keep down influenza, infantile paralysis, typhoid, and diphtheria, as well as tuberculosis. And the painting brush should follow the scrubbing brush so that the cleaned places may be kept clean.

Do you want a clean town? Then do your part. Go through your house from cellar to roof and gather up all the old, useless, worn-out things stored away and get rid of them now. Clean out all rubbish, ashes, etc., in the cellars, yards, alleys, and stairways.

Screen your homes thoroughly. Remove any animal or vegetable matter. Manure breeds flies, which carry disease to human beings, especially the babies. Clean out and fix up the manure bins. Repair your yard fences, poultry houses, out-houses, etc. Then paint or whitewash them. Don't spare the paint.

An ostrich's egg weighs three pounds.

NICE WORDS WON'T DYE a dress or coat...

Neither pretty pictures nor colorful adjectives will dye a dress or coat. It takes real dyes to do the work; dyes made from true anilines.

Next time you have dyeing to do, try Diamond Dyes. See how easy it is to use them. Then compare the results. Your dealer will refund your money if you don't agree they are better dyes.

You get none of that re-dyed look from Diamond Dyes; no streaking or spotting. Just fresh, crisp, bright new color. And watch the way they keep their brilliance through wear and washing. They are better dyes because they contain plenty of real anilines—from three to five times more than other dyes. But you pay no more for them than for ordinary dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. Remember this when you buy. The blue package dyes silk or wool only. The white package will dye everything in your wardrobe, including silk and wool. Your dealer has both packages.

CHAPTER XVII.—Continued

Connie made no attempt to check her cayuse's onward flight. She was in no mood to listen to the kudos of the admiring crowd; she wanted only to get away from the scene as quickly as possible. The movement toward the centre gave her the opportunity she desired, and she urged the weary cayuse through an opening on her left. Many hands were reached up to congratulate her, but she pushed her way through to the trail.

At the sound of hoof-beats behind her she turned to see Laforte urging his tired mount toward the Pemberton trail and looking back apprehensively over his shoulder.

Several men were running after him, shaking their fists and uttering loud imprecations. A man leaped from behind a jack-pine to land in the path of the half-breed, lunged for the reins, missed, then caught the stirrup. Laforte struck the man a blow with his heavy whip that loosened his hold and felled him to the ground. — Connie saw Gillis break from the crowd, jump to the saddle of a cayuse and start after the fleeing man just as the latter disappeared in the

woods. Gillis waved his hand to her and vanished in pursuit. She urged Pegagus to the shelter of the timber as she saw her father and Donald running toward her.

The strenuous race and the spectacular fall had left both horse and rider in a badly shaken condition. Connie's body was bruised and sore, and her head ached horribly. The cayuse's strained muscles were stiffening, he was limping badly, and his head drooped wearily as he dragged his tired limbs up the steep trail.

At the barn door Connie dismounted stiffly, removed the horse's bridle, then threw her arms passionately around his neck and stroked his symmetrical head with soft caresses. "I'm so sorry, Peggy darling," she said in a choking voice.

The horse nipped her shoulder in a weak attempt at playfulness, as if to signify that he quite understood.

Connie's eyes brightened at a sudden thought. "Peggy, dear," she whispered softly, as she nestled her cheek against his soft mane "do you know that I can have some nice things now? Lots and lots of nice things. I am going to buy you a blanket—a nice thick one for winter—and some ribbons for your mane. And you, Peggy—with a flood of tenderness in her voice—"you won't all this for me."

She was crooning sweet nothings in his ear that only Pegagus could understand when her father appeared, breathless from running, his face grey and anxious.

"Are you all right, Constance darling?"

Connie stepped forward. She was pale and weak, but her colourless lips tried to form a smile. "Yes, Daddy dear—I'm—all—right—". Her voice trailed to a whisper and the blue eyes closed as darkness fell upon her like a cloud. Swaying uncertainly for an instant, she fell like a broken flower into her father's outstretched arms. For the first time in her life Connie had fainted. She lay like a child in his trembling arms, her upturned face wearing the pallor of death.

With a prayer on his lips and an agony of fear in his heart, her father carried her to the cabin and tenderly stretched the bruised little body on the coarse blankets of her bunk.

CHAPTER XVIII.

At the race-course the crowd eddied excitedly, about the judges' stand, or stood in groups talking of the wonderful performance of the spotted cayuse that had made the erstwhile champion appear a mere tyro.

Gillis came riding slowly from the woods and was hailed by questioning shouts from a score of throats.

"Did you get him?"

A bloody handkerchief was wrapped around the big man's head, and a livid welt showed on his forehead. He smiled grimly as he dismounted, "I got the d—d skunk," he answered savagely.

He turned to a group of Indians. "You fellows'd better look out for him when you go along; his eye-sight's kinda bad."

Donald came to the front of the judges' stand and held up his hand for silence. Gradually the hum of voices died away and the crowd turned to face him.

"As you know we are to take up a collection to add to the Company's purse. The gentleman below," pointing down at Andy, "will hold the hat. We have witnessed an exhibition of matchless skill and pluck. Give us your feel."

The crowd cheered lustily. Then, jostling each other good-naturedly like a lot of schoolboys, they formed in a long queue.

Andy started the collection by giving his whole roll of bills. Money showered upon him until it was forced to call for another hat.

"Fightin' Jack came to Donald in great perturbation. 'Say! Our gung's all stony broke. Can we sign a due-bill?'"

Donald called the time-keeper. "Make her out for twenty bucks for each of us," said "Fightin' Jack. Andy's spirits soared as the pile rose higher.

"God bless 'er little 'eart," he murmured, "she 'ave 'ave 'ole ship of them blinkin' canisole things."

An hour later, as Donald climbed the hill to deliver the prize, he met Doctor Paul.

"How is she, Doctor?"

"She's had a nasty shaking up, but there are no bones broken. She will have to remain in bed for a week or so."

Wainwright saw Donald coming and stepped outside the door to meet him. "She's sleeping," he said in a low tone. He looked questioningly at Donald as the latter passed him the package of money.

"The price money," Donald explained. Wainwright peeped at the contents and his face lit up with pleased astonishment. "I understood that the purse was to be a small one!"

When Donald told him of the collection Wainwright's face flushed hotly. "Is that the custom?" he questioned sharply.

Donald nodded.

Wainwright paced nervously with hands clasped behind his back. "Pardon my abrupt manner," he said contritely, "I am a bit out of sorts to-day."

Every evening Donald called at the Wainwright home, bringing little delicacies carefully prepared by Andy. Once he spoke to Connie from outside the door, and her answering voice gave him an odd thrill. He pondered over this as he made his way down the hill. He was struck by a sudden thought. His face broke into a smile and he shrugged his shoulders. "Nonsense," he said aloud.

Janet remained several days after he had returned to the city. She tried in vain to restore the familiar relations which formerly existed between herself and Donald. His evening visits to the cabin by the mountain deprived her of his company, and she, half-jestingly, reproved him for his inattention to her. With spirits depressed and a despondent look in her dark eyes, Janet returned to Vancouver.

One evening Wainwright gave Donald a letter to post, addressed to a big departmental store in Vancouver. A few days later there arrived numerous bundles and boxes, including a big trunk. Donald with the assistance of Gillis's crew carried them up the hill.

"I've brought your big trunk with the 'bulky top,' Miss Wainwright," he called.

Connie sat up in her bunk so quickly that her head bumped the boards above. "Miss Wainwright" he had called her! Her eyes glowed in the dusky half-light. "Thank you so much," she replied.

The next day Wainwright informed Donald that Connie was up and would see him.

"Just a minute, Dad," she cried as she heard them approaching.

Feverishly she rushed to the small mirror to glance at her reflection. With nervous hands she smoothed the hair about her ears and smoothed the imaginary wrinkles from the collar of her dress. Then she sat down gravely and arranged her skirts about her.

(To Be Continued.)

Cutting Corns With Razor Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection, followed often by death may result from paring corns with an infected razor. Quick, safe relief comes from using PUTNAM'S CORN EXTRACTOR. If afflicted with corns, callouses or sore foot-lumps, use "PUTNAM'S"—it's reliable, and sure to shrivel up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use PUTNAM'S PAINLESS CORN EXTRACTOR. 25c. at all dealers.

Australian Wine Firm
An old-established wine firm of Australia has incorporated under the British Columbia provincial statutes and proposes importing Australian wines in large quantities.

KEEP YOUR BABY HAPPY AND WELL

Every mother wishes her child or children to be well and happy; to be bright-eyed, rosy-cheeked boys and girls. No mother, though, can expect her children to escape all the ills of babyhood and childhood. As she does much to help them fight the battle for health.

All prudent mothers constantly keep at hand the means of aiding their little ones when sickness comes suddenly—as it generally does in the case of children. In every home where there are infants and young children Baby's Own Tablets should be found. Read what Mrs. Mary Hill, Centine Dummer, Ont., says concerning these Tablets:—"I am the mother of six children and would not be without Baby's Own Tablets. They are a wonderful medicine for little ones."

Baby's Own Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus break up colds and simple fever, banish constipation and indigestion and allay the irritation accompanying the cutting of teeth. They are absolutely safe and are pleasant to take. The Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Scotch mother complains that her daughters "have danced away from her." Having their Highland fling probably.

Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. This is an alkali, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain disappears. You are happy again in five minutes.

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Little Helps For This Week

"Which hope we have as an anchor of the soul, both sure and steadfast."—Hebrews vi. 19.

God liveth ever!

Wherefore, Soul, despair thou never! What though thou tread with bleeding feet?

A thorny path of grief and gloom, Thy God will choose the way most

To lead thee heavenwards, lead thee home.

For this life's long night of sadness He will give thee peace and gladness!

Soul, remember in thy pains, God o'er all for ever reigns.

Who can really think and not think hopefully? You were in my mind last night, and you brought a little boat to sail me past despondency of life and fear of extinction.

When we despair and discard things, it is our senses in revolt, and they have made the sovereign bringer of our life. I heard you whisper, "There is nothing the body suffers that the soul may not profit by." With that I sail into the dark; it is my promise of the immortal,—teaches me to see immortality for us.

—George Meredith.

Miner's Liniment For Panama

A Canadian trade commissioner's office has been opened in Panama, and a trade commissioner will shortly be appointed. It is officially announced that the present post of the Central American Republics comes under the commissioner's office in Mexico, while Venezuela and Colombia come under Cuba.

A magazine writer says a dog finds an empty place in man's life. This is especially true of the hot dog.

Miner's Liniment for the Grippe and Flu.

The Government of Alberta will spend \$1,500,000 on improving and constructing roads in the province this year.

You can tell a civilized country. It's one where people kill the birds and then spend millions to fight insects.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.

Magistrate: Are you sure you understand the nature of an oath?

Youth (seared stiff): Sure. Ain't I your caddy down at the links.

Miner's Liniment for Coughs and Colds.

He (earnestly): "I mean to kiss you, and kiss you, and kiss you."

She—"That would be only three times."

Miner's Liniment prevents Flu.

Long Air Trip Planned
One of the longest air lines in the world is being contemplated between London and Cape Town. The route, more than 8,000 miles long, will branch off at Cairo, crossing over into India.

Vinegar used in place of water when mixing plaster of paris will keep the plaster softer for a longer time than water.

CONSTIPATION RELIEVED QUICKLY
The Family Vegetable Pill will move the bowels without any pain and without depressing after effects. Sick Headache, Indigestion, Biliousness, Bad Complexion quickly vanish. Children and Adults can easily swallow Dr. Carter's tiny, sugar coated pills. They are free from calomel and poisonous drugs. All Druggists 25c and 75c red packs.

DO YOU
like to paint? We have printing cards and small pictures ready for painting at once. The work is infinitely interesting and profitable. Send 10c. for liberal trial selection of cards, catalogue of designs and instructions.

"FEEL WELL AND STRONG"

MRS. J. MALIN
R.R. No. 5, Horton St., Hamilton, Ont.
"I have to work in the store and do my own housework too and I got nervous and run-down and was in bed nearly all summer. The last noise would make me nervous. I was told to take Lydia E. Pinkham's Vegetable Compound and I have taken seven bottles. It has made me stronger and put more color into my face. I get along nicely now with my work and with my four children. I would like to answer letters."—Mrs. J. Malin.

Lydia E. Pinkham's Vegetable Compound
Lydia E. Pinkham Medicine Co., Lynn, Mass. U. S. A. and Cobourg, Ontario, Canada.

Great Emergency Sale

Enters on it's Last Week

Personal and Local

The baseball club dance held in the opera house on Monday evening was well patronized.

Master Mechanic Scott of the International Coal Co. has been seriously ill during the past week.

When Antrobus offers a bargain you can "bet your boots" it cannot be equalled anywhere, and that takes in a lot of territory. Call at the store and see the values offered.

Every business man in Coleman will be asked to renew his membership in the Board of Trade to help meet the cost of publicity propaganda to attract tourist traffic.

Next Monday the ladies of the United church (St. Paul's) will hold their annual supper in connection with the church anniversary, and this will be open to the public at the usual charge. This is an annual event well worth attending.

Capt. Donnelly of the Salvation Army left last week for Humboldt, Sask., and his place here will be taken by an officer from Macleod. In the meantime Lieut. Mackings is keeping the flag flying and carrying on.

Do you read the War Cry? You will gain more interest in the Salvation Army's splendid mission to mankind if you do. Moreover, don't pass up the opportunity to show appreciation of the Army's work by dropping your contribution in the tambourine.

A party of gypsies were in town last week and plied their trade of trying to tell fortunes, until ordered to move on by the police. These Romany strollers were travelling by automobile, and Charlie Nicholas' sale attracted the women of the party, the older woman possessing quite striking features.

A car accident in which four cars were more or less damaged occurred on Saturday night between Frank and Bellevue. A Passberg man driving westward in attempting to pass a car travelling in the same direction collided with an eastbound car driven by a Mr. Goodwin, Roland Crayford driving behind Goodwin crashed into the rear end of his car, causing heavy damage to both. Fortunately no passengers were injured.

Classified advertising in The Journal pays. If you have any household goods for sale, let the people know through the Classified Ads. One customer ordered in an advert for two weeks at a cost of 60c. The day after the paper was published he states that quite a number called stating they had seen the advert and in less than two days he had sold practically everything offered for sale.

Cheap Paint

Is Dear at Any Price

The true test of paint value is the amount of surface a gallon will cover and its lasting qualities. You may buy cheap paint and after a year you will have to repaint. On the other hand you'll buy good paint and find it good after five years, with the consequent saving in labor and cost of paint.

Kyanize

WHITE ENAMEL
works just as well right over old paint as it does on new work. Use it for bathroom wall and fixtures, for parlor and dining-room work, for iron beds, picture frames, chairs and tables. It flows so nicely you can put it on yourself and do a good job without showing laps. It dries pure white and stays white. Will not crack, chip or peel off.

We refund your money for empty can if Kyanize does not do all we claim.
